Personal Statement:

In the years that I've spent at the Organization, I have come to know, value, love, and above all, believe in the OAS, one of the greatest strengths of which is its staff.

It would be a privilege to represent them all, particularly the General Services staff, and to support a permanent dialogue, not only between the Staff Association and Management, but also between the Staff Association and the staff, on the basis of mutual respect and transparency.

I will work tirelessly to protect our well-being and dignity in the workplace, especially in defense of our rights as staff members in times of crisis.
